

REFERENCES

I hereby certify that the company BIM Point Sp. z o.o. with its registered office at Zabłocie 25/7 30-701 Kraków, in March and April 2016 at the request of

OFFICE FOR DIGITAL ARCHITECTURE GMBH – ODA at Biberstrasse 9/10, 1010 Wien, performed an architectural and construction inventory of a set of commercial buildings in BIM technology:

- **Shopping Centre Möbel Mahler in Bopfingen, Germany:**
total usable area of premises: 61 406M2
- **Shopping Centre Möbel Mahler in Wolfratshausen, Germany:**
total usable area of premises: 45 400m2

Delivered development (BIM model and documentation) is part of the project documentation.

The measurement of the buildings were made with 3D laser scanners and optical control total station. Thanks to use of modern technology the model and documentation in 2D prepared by BIM Point Sp. z o.o. characterises a high level of accuracy and attention to detail.

The model was made thoroughly and within the prescribed time, which gives us full conviction to recommend the company BIM Point as a professional partner with extensive experience in the industry.
